Alumni News

At ACOM, we want to evolve and meet the changing needs of our alumni network. We hope through your feedback, we can improve communication and engagement with alumni, build robust mentorship and volunteer opportunities with students, and open doors to

preceptorships, clinical rotations, and faculty development.

Your feedback is critical and we know your time is valuable, so each person who completes the following survey will be entered into a drawing to win one of three ACOM Swag Bags!

On behalf of the ACOM Alumni Association Board of Directors, thank you in advance for taking the time to complete this important survey. Please contact the Alumni Affairs office at alumni@acom.edu if you have any questions.

Copy and paste the link below to your browser in order to complete a short survey.

ACOM News

ACOM Core Site Reveal

ACOM hosted our Reveal / Assignment Day with the Class of 2024! Our second-year students opened letters revealing where they will spend the next two years of

clinical training. ACOM has 31 core sites located in Alabama, Florida, and Mississippi, and we are so appreciative of the hospitals, clinics, and healthcare teams in these communities for their instrumental role in medical education. Enjoy these highlights from the reveal!

Clark named 2021-2022 ACOM Student Doctor of the Year

Caroline Clark, Class of 2022, has been named ACOM's 2021-2022 Student Doctor of the Year (SDOY). Each year, the ACOM Student Government Association requests nominations of students who demonstrate the principles of leadership, community service, dedication, and professionalism. Osteopathic colleges across the country select one student from their institutions to compete for the national SDOY award. Caroline served as SGA President for the Class of 2022. She plans to pursue a pediatrics residency and ultimately, either a fellowship in neonatology or another pediatrics subspecialty.

ACOM, WCCD, and Troy University students collaborate during Interprofessional Simulation

Second-year students from the Alabama College of Osteopathic Medicine (ACOM) participated in a day-long, joint Interprofessional Education (IPE) medical simulation session on February 11, 2022, with students from Wallace Community College Dothan (WCCD) and Troy University Dothan. The event was held in the Health Sciences Simulation Center located inside the Heersink Family Health Science Building on the Wallace Campus in Dothan. During the session, students from each institution worked together to care for a standardized patient, with the goal of gaining a better understanding of the roles and responsibilities each profession has in inpatient care. This session is part of an ongoing series of collaborative events between WCCD nursing students, ACOM medical students, and Troy University Dothan nursing and social work students.
