## Part V: Medical Equipment

Dear Class of 2029,

Welcome to the Alabama College of Osteopathic Medicine (ACOM) family. As one of your first actions, you will need to purchase your medical equipment. This is a very important decision because the instruments you buy now will serve you for many years to come. ACOM has partnered with, The Medical Store, to give you special pricing and service for the required equipment. Students are required to purchase the referenced equipment and may elect to do so from the vendor of their choice. Although it is NOT required to purchase the package from The Medical Store, special pricing and payment flexibility has been negotiated on the student's behalf. The same is true for the suture kit referenced on the next page. If you have equipment already you may bring it on a designated day of your orientation for clinical faculty to review for approval. If the faculty approves then you may return the duplicate equipment for a full refund. Stethoscopes engraved with student's name cannot be returned. All required equipment must be ordered by July 10th to ensure that it is on hand by orientation.

ACOM Clinical Faculty has approved the following equipment list that must be ordered by **Thursday, July 10th, 2025**.

A good, cardiology grade, double lumen (these may be combined into a single tube) stethoscope. A diagnostic kit for examining inside the eye and the ear: Welch Allyn is the most common manufacturer of diagnostic kits, and it will last your entire career. Although this is the most expensive piece of equipment, it is essential so that you can get enough practice to master these techniques. You will also need it on many of your clinical rotations and in a multitude of clinical settings where they are not mounted on the wall: hospitals, under-funded clinics, and nursing homes. Diagnostic sets purchased **MUST** include the COAXIAL ophthalmoscope head.

- Sphygmomanometer for Blood pressure
- Taylor Reflex Hammer
- Babinski Hammer, Telescoping
- Two tuning forks: 512 for the ear exam and 128 for the neurological exam
- Tape Measure
- Eye Occluder
- Rosenbaum and Snellen Pocket Eye Card
- Penlight.LED
- Equipment Bag
- Pan Optic PLUS Ophthalmoscope Diagnostic Set (**INCLUDES COAXIAL OPHTHALMOSCOPE**)

### How To Order Your Equipment:

**The equipment package is now available to order online from The Medical Store.**

**Order must be placed by July 10, 2025 to be included in the group delivery to the school in August. Date TBD.**

If you are dependent on financial aid to place your order, you may order online **WITHOUT** submitting payment and pay for your equipment when you pick it up at school in August. Please EMAIL The Medical Store at [customerservice@themedicalstore.biz](mailto:customerservice@themedicalstore.biz) to obtain the coupon code that you can use online to defer payment. Please note that credit cards will not be accepted for post-payment, only Check, Quickpay or Venmott

1. Go to <https://themedicalstore.biz/> or scan the QR code.
2. Click the "School/Group Orders" tab at the top of the homepage. Enter School Code **acom71025n**. This will take you to your school's custom store.
3. After you have made your selections click "Add to Cart" at the bottom of the screen. Then "Go to Cart".
4. To have your order delivered to school for **FREE**: Select "Ship to School" as your shipping option in checkout. You Must Order by **July 10, 2025**. Your shipping will be free, and your order will be **available for pick up at school in August**
5. To have your order shipped directly to you: select a FedEx Shipping option. (Shipping charges will apply.) Your order will be shipped and delivered to your ship-to address. FedEx home/ground delivery is 1-4 business days.
6. If paying by check: you can print an order form from your school's page on the website and mail it the address on the form.

Sincerely,  
Renee Woodham, LPN  
Director of the Clinical Competency Center
